

# BEST BUDDIES

---

## What is Best Buddies?

Best Buddies is a program where students out of a Leadership class or club go hang out with kids with special needs. You would include them in spirit days or school dances or you can just go hang out in their classroom and do activities with them.

## Why you need it at your school?

It's important to have Best Buddies at your school to ensure that the kids in the special needs classes are included in school activities and friendship groups. It is a great way to spread positivity around your campus.

## How you can make it happen?

Your program will most likely start off as a club, those are easy to start at most schools. If you keep it going long enough it can be made into a program in some sort of leadership class such as ASB, Renaissance, WEB, Link Crew, or Senate or anything else.

## Make a plan for your school:
